PROFESSIONAL SUMMARY

Full Stack Developer with over 6 years of technical experience and a proven track record in leading agile teams and strategic communication with stakeholders. Specialist in scalable architecture using **PHP (Laravel)** and **Vue.js**, focused on aligning engineering solutions with business goals. Expertise in performance optimization, CI/CD, and applying Data Science to the Backend.

TECHNICAL SKILLS

- **Backend & APIs:** PHP 8, Laravel 11, Eloquent ORM, RESTful APIs, GraphQL, Microservices, Swagger/OpenAPI.
- **Frontend:** Vue.js 3 (Composition API), Tailwind CSS, TypeScript, JavaScript ES6+, Blade Templates.
- **Infrastructure & Cloud:** Docker, Kubernetes (Basics), Linux (Ubuntu Server), Nginx, AWS/DigitalOcean (VPS).
- **Tools & Versioning:** Git (**Version Control**), GitHub Actions (CI/CD), JIRA, Bitbucket.
- **Databases:** MySQL, PostgreSQL, Redis (Caching/Queues), SQL Query Optimization.
- **Productivity & AI:** Accelerated Development (Cursor, OpenCode), Prompt Engineering for refactoring and testing.
- **Methodologies:** Scrum, Kanban, TDD, Clean Architecture, SOLID Principles, Code Review Leadership.

PROFESSIONAL EXPERIENCE

Proprietary Projects (SaaS)

Founder & Lead Developer

Remote

Nov 2025 – Present

- **AttriOn (TikTok Ads SaaS):** Integrated the TikTok Business API for campaign automation, supporting multiple concurrent users with a secure architecture.
- **Infrastructure:** Implemented production environments using Docker and CI/CD, ensuring high availability (99.9% uptime).

Amplimed

Full Stack Developer

Chapecó, Brazil (Remote)

May 2025 – Oct 2025

- Reduced API latency by **30%** through critical endpoint optimization, directly improving the end-user experience.
- Refactored legacy components to **Vue.js**, increasing code maintainability and eliminating accumulated technical debt.
- Implemented automated tests (PHPUnit) with **80% coverage** on new features, drastically cutting rework and production bugs.
- Provided technical leadership in Code Reviews, raising the team's delivery quality standards.

Amplimed

Data and Backend Engineer

Chapecó, Brazil

Jul 2024 – May 2025

- Ensured **100% integrity** in critical health data by processing millions of records with custom PHP/SQL scripts.
- Automated manual ETL processes, saving approximately **20 hours per month** for the operational team and reducing human error.
- Documented data architecture and APIs, accelerating new developer onboarding by 50%.

Amplimed

Data Migration Engineer

Chapecó, Brazil

Sep 2022 – Jul 2024

- Managed complex legacy database migrations maintaining zero data loss.
- Reduced average migration time from 2 days to **10 hours** through the development of proprietary conversion tools.

Amplimed

Level 2 Technical Support

Chapecó, Brazil

Oct 2021 – Sep 2022

- Resolution of complex technical incidents with a satisfaction score (CSAT) exceeding 95%.

EDUCATION

Faculdade Metropolitana do Estado de São Paulo

MBA in Data Science and Big Data Analytics

Remote (EAD)

Jan 2024

- Focus: Machine Learning and Analytics applied to business.

UniSALESIANO

Technologist Degree in Digital Game Development

Araçatuba, Brazil

Dec 2020

- Graduated with academic honors ("Summa cum Laude").

CERTIFICATIONS & LANGUAGES

- **Languages:** Portuguese (Native) | English (Advanced - Reading, Writing, and Speaking).
